

Instruction

1. Take the steel frame out of the box
Straighten, then insert steel tube one side after one side.

Remark: before insert, please check the connector, open the lock.
And press the two small buttons flatly so that the steel tube can be inserted.

2. Lock the button.

3. Fold frame from both sides to the middle.

4. Put frame into the removable fabric cover.

5. Push the frame to each corner.

6. Slide the tube lock half way up, then insert
the steel tube into the lock and push them
up to the top.

To Fold Down

Slide the tube lock in the
direction of the arrow.

Fold it down and
lock the straps.
